

# Segment - 2

Description of the tool(s) that will be used to create final dashboard

# Tool : Tableau

Details :

We will be using Tableau as the tool to create our dashboard.

This dashboard will have multiple charts from the Billboard and Grammy data set, which are specific to Songs and its position in the billboard chart for each week.

Dashboard will have filters for filter the data based on Songs, selected by an end user.

# Sample : Billboard Grammy Dashboard

Billboard Grammy Dashboard
